Intern — FMML — ihub  
Data at IIIT-Hyderabad

## Professional Summary

Enthusiastic AI/ML student with strong interest in Natural Language Processing. Skilled in implementing NLP workflows—data preprocessing, model training, and deployment of language-based applications, voice command systems and domain-specific chatbots. Currently building multiple language-based AI projects and exploring speech, text, and conversational AI systems to solve real-world challenges.

## Experience

**Intern — FMML, ihub Data at IIIT-Hyderabad • July 2024 — April 2025**

- Completed a one-year certified online course covering core concepts of modern machine learning, including data analysis, model building, and practical applications and secured Grade B.

**Teaching Asisstant, KIET Robotics Lab**

- Served as a teaching assistant for lab members, simplifying Python and C++ concepts and supporting them in writing clean, efficient code.

## Education

- St. Xavier's High School , Puri**  
Intermediate  
66% – 2021-2022
- KAKINADA INSTITUTE OF ENGINEERING AND TECHNOLOGY (WOMEN'S)**  
B.Tech – Artificial Intelligence and Data Science  
70.6% – 2023–2027 (Present)

## Projects

- Voice Assisstant with Full College Infromation (Team Project)**  
A humanoid-based voice assistant that simplifies access to college details using natural, conversational responses.
- Humanoid AI Asisstant with G1**  
A local LLM-based voice assistant built with Ollama, enabling offline speech processing and intelligent responses from curated custom data.
- Grammar Correction System**  
A Natural Language Processing based system that automatically detects and corrects grammar, spelling, and punctuation errors to improve sentence clarity and accuracy.
- Smart Offline Translator**  
An offline language translator that converts text between multiple languages without requiring internet.
- E-YANTRA - Krishi Cobot**  
Currently working on the e-Yantra Krishi Cobot theme, developing a rover-mounted robotic arm for smart agricultural automation.

## Internships & Achievements

- Cognifyz Technologies – Machine Learning Intern — Gained hands-on experience in data preprocessing, model building, and solving real-world ML problems.
- Abhiyaan 2023- Winner and Best Performer— Acknowledged for innovation, leadership, and problem-solving during Abhiyaan 2023.

## Technical Skills

Python

C++

Natural Language Processing

Machine Learning

ROS2

Linux (basics).
