

Professional Summary

Experience

Intern — Web Developer, Cognifyz Technologies • Jun 2024 — Aug 2024

- Worked on web projects using HTML, CSS, JavaScript; improved page load time by 20%.

Education

- **KAKINADA INSTITUTE OF ENGINEERING AND TECHNOLOGY (WOMEN'S)**
Diploma – Computer Science Engineering
78.9% – 2021–2024
- **KAKINADA INSTITUTE OF ENGINEERING AND TECHNOLOGY (WOMEN'S)**
B.Tech – Artificial Intelligence and Data Science
76.7% – 2024–2027 (Present)

Projects

- **Road Segmentation for Custom Dataset**
Trained UNet model for real-time road detection using custom datasets in PyTorch and OpenCV.
<https://github.com/Rahitya86/Road-Segmentation-for-Custom-Dataset> (<https://github.com/Rahitya86/Road-Segmentation-for-Custom-Dataset>)
- **Live Face Recognition**
Developed a real-time face recognition system using OpenCV and deep learning models.
https://github.com/Rahitya86/Live_Face_Recognition (https://github.com/Rahitya86/Live_Face_Recognition)

Internships & Achievements

- Cognifyz Technologies – Intern — Worked on web projects using HTML, CSS, and JavaScript.
- Won 2nd place — TCS CodeVita (college round)
- Conducted 1-hour session on Robotics & Computer Vision for 240 students

Technical Skills

pytorch

c++

devops

GenAI

RAG

Langchain

Prompt

data analysis

CrewAI

AutoGen
