

B Anil Kumar

Email: ballaanilkumar369@gmail.com | Phone: 6302200431 | Yanam, Puducherry

Objective

Aspiring Robotics Engineer with hands-on experience in ROS2, C++, LiDAR processing, and autonomous navigation. Focused on building intelligent robots, simulations, and real-time control systems.

Education

B.Tech CSE (AI) — KIET, 2024–Present (Lateral Entry, 3rd Year)

Diploma — Dr. B.R. Ambedkar Polytechnic College, Yanam — 2023

SSC — Rajiv Gandhi Govt. EM High School, Yanam — 2020

Projects

Obstacle-Avoiding Robot (ROS2 + C++)

Implemented LiDAR-based obstacle detection and autonomous navigation using ROS2 nodes, callback functions, and real-time /scan topic data.

3D VR World Interaction (Three.js + Blender)

Developed a 3D interactive WebGL world with VR character mode allowing first-person exploration using imported Blender models.

2D Platformer Game (Unreal Engine 5)

Created a 2D platformer using UE5 Blueprints with movement logic, collisions, animations, and polished gameplay.

Skills

Programming: Python, C++

Robotics: ROS2, Gazebo, Arduino

Tools: Git, Linux, Blender, Unreal Engine

CV/ML: OpenCV, Image Processing, ML Basics

Soft Skills: Problem-solving, Teamwork, Communication

Languages

English (Fluent), Telugu (Native)

Interests

Robotics simulations, Game development, 3D modeling
